

# WORK SMARTER, NOT HARDER. ERGONOMICS IN THE WORKPLACE

Would your facility like to reduce absenteeism, musculoskeletal injuries or lost time due to workplace accidents?

A new resource exclusively for food processors called Ergonomics in the Workplace is now available! This package of guides, posters, and a DVD enables companies to achieve the overall performance of the operation by improving process reliability, production numbers, and reducing injury claims and absenteeism costs.

**FULL PACKAGE \$115 OR \$90 (FOR MEMBERS)**

**You will receive:**

**1 DVD** – *Introductory Ergonomic Training for Employees*

The videotape will cover training in the area of Musculoskeletal Injuries risk reduction including the basic principles of movement and self-management strategies, in addition to more detailed information about the commonly injured areas.

**4 Guides** – *A practical approach that can integrate well with any safety initiatives*

- Cost Justifying Ergonomics
- Integrating Ergonomics into the Workplace
- Ergonomic Risk Identification
- Solving Ergonomic Problems

**10 Posters** – *8 1/2 x 11 full coloured laminated illustrations of proper movements and positions*

**Purchase the DVD only for \$24.95 or \$19.95 (for members)**
